

WDES Amendments to 21-22 Trustland plan

1. Using our carryover funds for the current year, we would like to have the flexibility to address our current goals again and use those funds to improve our Acadience reading scores. That would include other digital learning tools and classroom supplies.
2. Using our carryover funds for the current year, we would like to add math/science consumables, manipulatives, and other digital learning tools that will help learning outcomes.

Voted on and approved by the school board at November meeting.
