Adoption of instructional material—

Except for adoption of instructional material within the scope of Policy ECH, the following process shall be followed in adopting instructional material for use in the District or a particular school in the District. The Superintendent or Superintendent’s designee shall determine what learning material to recommend to the Board of Education for approval for use, taking into consideration recommendations and requests from District and school administrators and educators and after considering input and recommendations from an instructional material review committee. Depending on where the learning material being considered will be used, the instructional material review committee may be formed for the District as a whole, or for all the schools at a particular level of instruction (elementary, middle school or junior high, or high school), or for a specific school.

After receiving recommendations from the Superintendent, the Board shall adopt or approve instructional material in an open and regular meeting of the Board. Before adopting or approving the material, the Board shall hold at least two public meetings on the Superintendent’s recommendations at which parents of District students and District educators have the opportunity to express views and opinions on the recommendations. Prior to these meetings, the District shall post the recommended material online to allow public review or (for copyrighted materials) shall make the recommended material available at a District location for public review.

Subject to the foregoing hearing process, learning material which has been designated by the State Board of Education as within any of that Board’s “Recommended” categories may be approved for use in the District. Learning material which has been designated by the State Board of Education as “Reviewed, but not recommended” may not be approved for use in the District.

In determining whether to recommend learning material for adoption, the instructional material review committee and the Superintendent may consider whether the learning material:

1. is consistent with the Utah core requirements;
2. is mapped and aligned to the Utah core and state assessments (if planned for use as primary instructional materials);
3. is high-quality, research-based, and proven to be effective in supporting student learning;
4. provides an objective and balanced viewpoint on issues;
5. includes enrichment and extension possibilities;
6. is appropriate to varying levels of learning;
7. is accurate and factual;
8. is arranged chronologically or systematically, or both;
9. reflects the pluralistic character and culture of the American people and provides accurate representation of diverse ethnic groups;
10. is free from sexual, ethnic, age, gender, or disability bias and stereotyping; and
11. is of acceptable technical quality.

Review of instructional material—

Requests for review of instructional material are limited as follows:

1. Personal interest requirement. The following may request review of instructional material:
 - a. A student currently enrolled in and attending a District school;
 - b. A parent or guardian of a student currently enrolled in and attending a District school;
 - c. A District employee;
 - d. A member of the Board of Education; or
 - e. A current resident of the District.
2. Limits on frequency
 - a. Each individual is limited to three requests to review instructional material per school year.
 - b. Any item which has been subject to review, reviewed under this policy, and retained may not be subject to another request for review for at least three years.
3. Preconditions to request for review
 - a. Any adult who wishes to file a request for review must first read or review the instructional material as a whole before filing the request (students are not to be required, requested, or encouraged to complete reading or reviewing instructional material in which they have discovered content they believe is pornographic or indecent).

If the requirements and conditions for review are met, an individual who desires review must complete the Request for Review of Instructional Material form and provide it to the Superintendent or Superintendent's designee. The Superintendent or designee shall make an initial determination whether the form has been fully completed and the requirements for requesting review have been met. If

so, the Superintendent or designee shall establish a District instructional material review committee to conduct the review.

In conducting a requested review, the primary purpose of the District instructional material review committee shall be to determine whether the item contains pornographic or indecent material. However, the committee may also evaluate whether the instructional material is age-appropriate and whether the prior approval of the material should be reconsidered in light of all appropriate factors. The committee's determinations shall be made by majority vote of the members of the committee. Prior to engaging in any discussions with other committee members or participating in any decision making, each committee member shall read the item in its entirety (for written items) or review the item as a whole (for non-written items).

After the chair of the District instructional material review committee has confirmed that all members of the committee have reviewed the item in question, the chair shall schedule such meetings as are necessary for the committee to discuss the item and make its determinations.

In determining whether the item contains pornographic or indecent material, the committee shall determine whether the material meets any of the four tests for pornographic or indecent material set out in the definition above.

If the committee determines that the item contains pornographic or indecent material, then the item shall be designated as no longer approved for use in the District and removed from District schools. If the committee determines that the item does not contain pornographic or indecent material, then the committee may, but is not required to, proceed to other considerations as set out in the following paragraphs.

[Utah Code § 53G-10-103\(2\) \(2022\)](#)

The committee may elect to evaluate whether the item should be removed from all use or restricted in use based on considerations of age appropriate use. In this evaluation, the committee shall use the definition of "age appropriate" set forth above in light of the prevailing standards in the adult community with regard to what is appropriate for children of that age.

The committee may also elect to reconsider the prior District approval of the item. In doing so, the committee shall consider the factors set forth above for initial approval of instructional material.

After the committee has made its determinations, it shall prepare a written report which explains its findings and the grounds for its findings. A copy of the report shall be provided to the person who requested the review.

After the committee issues its report, the chair of the committee shall report the results of the review to the Utah State Board of Education using the reporting tool provided by the State Board at [this website](#).

[Utah Code § 53G-10-103\(4\)\(b\)\(iii\) \(2022\)](#)

The determination of the District instructional material review committee is final and may not be further appealed.
