Summary of EES School Land Trust plan for 2019-2020

Goal #1 84% of students will be on grade level or make a year's progress in math.

We were making progress towards our goals and had some data showing that after the mid year assessment.

The funds were spent as stated in the plan except that we did not have to spend on the online data organizing tool (Mastery Connect).

Goal #2 83% of students will be on grade level or make a year's progress in reading.

We were making improvements in our reading instruction and doing lots of research in the science of reading which was really starting to improve our philosophy of teaching reading.

All items on our plan were purchased except we were not able to attend the Tween Author Bootcamp.

Goal #3 75% of students will pass in class science assessments

Science instruction improved after many teachers received their STEM endorsement. Progress was being made and our science scores were showing gains as we got into March.

Funds were spent toward this goal, but not all of the funds. Some of the funds for this goal helped us work more on goal #2.

Distribution for 2019-2020 was \$79,976.00

Because of COVID 19 we were not able to obtain the end of year assessment results.
