Take attendance
Guest and staff comments
Verify contact information of council
Training opportunities and required training
Update on current plan including progress on current goals
Title 1 requirements
Internet safety training for all students
Current needs and any possible amendments
Council member comments
Adjourn meeting

We welcomed guests to our meeting.

We then welcomed Camille Grimstead, one of our new members.

The council requested any guest that has any comments to speak, and there were no comments.

Council members verified their contact information, were shown how to access the community council information on the website, made motions and seconded and elected Sarah Underwood to be the chair. The council also elected Christy Hansen to be the vice chair.

Training opportunities were shared with the council and they are all required to watch two videos. The council was also notified that the state School Land Trust website has other training opportunities available.

We looked at reading and math data from last year, discussed the progress made before the pandemic closed in person school. We also discussed current goals and our baseline data for our measurements.

We discussed current expenditures and purchases and future purchases.

We will have an amendment written and voted on at a future meeting. This amendment will address getting some chromebooks into the hands of the teachers and students that need them now. The \$ amount that we will be spending on Chromebooks will be adjusted as well since some items on the plan are not as much money as originally planned.

We spoke of future meeting dates and the meeting was adjourned.
