USE OF BUILDINGS AND GROUNDS

Purpose

Utah State Code 53A-3-413 designates school buildings as “civic centers,” established and maintained as a limited public forum to district residents for supervised recreational activities and meetings. This policy establishes guidelines delineating allowable uses of school property, when such use does not conflict with the program of regular school activities.

Definition

Non-profit: any person or organization that does not sponsor or manage an activity for profit.

School Employee: any person whose salary is paid through district payroll and is entrusted with keys to enter the facility where they are assigned.

Guidelines

1. To secure the use of buildings and grounds, all groups or individuals must make application, in advance, through the building administrator of the school involved.
2. Use of buildings and grounds requires adult supervision (21 or older) by a school employee, unless a qualified renter of the building has agreed to accept supervisory duties and the responsibility for the upkeep and security of the building.
3. Application for the use of facilities implies the acceptance of the rules and regulations of the Board of Education governing their use. The building administrator has the responsibility to see that these rules and regulations are adhered to by the community groups using these facilities.
4. School property may be used by school employees for purposes outside the school curriculum or school responsibilities of the school employee only with the express permission of the school administrator, and may not be used for the profit of the individual or any party. If use of the property is for a for-profit activity, school employees are subject to following the same procedures as other patrons.
5. Students or student groups must obtain permission from the building administrator to use any buildings and grounds. These groups must have an approved chaperone with them.
6. When a building is rented for activities, other than school functions, additional fees may be charged. The payment of school district employees necessary to supervise buildings and equipment shall be the responsibility of the renter, paid to the school.
7. Non-school events will not be scheduled until assurances and financial guarantees have been made to minimize damage or loss potential.
8. Any group or individual who fails to comply with standards for appropriate care and concern for district property may be denied future use or required to provide property damage insurance or a deposit to cover cleaning and repairs.

Criteria for High School Gymnasium and Auditorium Use

1. Generally, high school gymnasiums and auditoriums should be used first for high school events, second for other school events, and third for community uses. When possible, the high school should schedule in advance so other groups will have a reasonable opportunity to schedule.
2. High school gymnasiums and auditoriums should be used primarily for large events where their unique features can be used to an advantage. Events that do not need a large audience capacity, or which have a high potential for wear and tear on the main floor, would be better scheduled in other venues. Community recreation activities would fit this criteria and usually should be encouraged to use auxiliary gyms.
3. Small group activities should not generally be scheduled in the main event portion of the gymnasiums.

Insurance

The Tintic School District requires a certificate of insurance from the organization (using group) requesting the use of District facilities showing that the organization has obtained \$500,000 of public liability and property damage insurance. This policy must name the Board as an additional insured and must cover any and all use of school property by or under the sponsorship or control of the user organization. Responsibility for obtaining such insurance coverage rests solely with the organization requesting the use of the District facilities. Responsibility for reporting to

the principal of the facility involved any losses or damages rests solely with the organization using the District facilities.

Exception to Insurance

The Tintic School District use policy works well in most circumstances. However, when it comes to non-profit civic center type of activities as determined by the building administrator, it is unreasonable to require the user to obtain a \$500,000 liability and property damage insurance policy. Therefore, when building (facility) use is requested for these types of activities, the following guidelines will apply:

1. The user will be required to complete a Tintic School District Use of School Facilities Application Form and must comply with all provisions contained in this form, except that the user will not be required to provide proof of liability and property damage insurance coverage.
2. The user will not hold or receive funds on state and district resourced property.
