CURRENT SCHOOL GOALS

From the Principal

Attendance: Increase attendance for students with chronic absenteeism.

Interventions: Provide interventions for those students who are below benchmark in English Language Arts and Math.

Staffing & Support: Keep staff numbers where they are to provide appropriate supports for student achievement.

What is Growth?

Each spring, students are assessed in the concepts and skills taught in the classroom, measuring student learning and the Utah State Standards. This measure shows the amount of improvement, or growth, students have made in each subject, illustrating the extent to which student learning is improving. To provide context, growth in each subject area is described as high, average, or low.
