School Land Trust Amendment proposals to submit to Tintic School District Board Members

Goal #1: Increase academic engagement and achievement by providing teachers and paraprofessionals with professional development that will enhance and improve instruction.

In Goal #1 We planned on some professional development opportunities that we were not able to attend because of the pandemic. We are able to have Smartboard training for Mrs. Westover, but it will not cost us any money this year. So the council voted and agreed that since the professional development we have done this year meets the criteria for our goal, that it is okay to use the funds for those opportunities. We have spent \$1250.83 on professional development for the 2020/2021 school year, and we would like the remaining balance carried over into next year's plan.

Goal #2: Increase academic performance and success in reading development and comprehension.

In Goal #2 We are proposing to amend the measurement portion of the goal to state that we are only measuring from the Acadience and the end of year assessments and no longer using the Read Naturally assessment.

Both amendments were presented to and approved by the community council on 17 FEB 2021.
